- HOTBIRD 13G

○ EUTELSAT 36A currently under redeployment

PRODUCT	DEFINITION	USAGE
Occasional Use (OU)	Pay As-You-Go satellite capacity on a per minute basis	For limited duration transmissions, often at short notice (e.g. breaking news, studio-to-studio broadcasting…)
Reservation by Subscription (RBS)	Commitment for a minimum number of hours over a period of time	For recurrent and planned usage of satellite capacity over one year (e.g. sports, games...)
One-off leases	Leases of capacity on a 24h basis for fixed periods	For events that require intensive usage of satellite capacity over a specific period of time (e.g. Olympic Games, general elections, special events,…)
Instant Link	Capacity requirements from 1 to 3 months starting from 1 MHz	For short-term broadband requirements (e.g. luxury yacht market, cruisers, mobile oil and gas platforms, …)
